PREPARING YOUR SCREEN ORDER FOR SHIPPING

Thank you for choosing National Security Screens as your screen supplier. We have been supplying Quality alarm screens to security professionals since 1985. National Security Screens guarantees its screens for two years from the invoice date against defects in materials and workmanship when installed by a Licensed alarm installer.

**Please follow these simple steps so that we can manufacture your
Custom security screens correctly.**

- 1) Mark each frame for the location of the lead wire using a.....O
- 2) Mark each location for a magnetic tamper with a.....T
- 3) Attach a signed and completed work order; be sure to choose a lead type.
- 4) Be sure to fill out the shipping instructions section of the work order form.
- 5) Be sure to sign your work order form and ship it with your screens.

HOW TO SHIP YOUR SCREENS

(Please do not use peanuts)

***** We can have your shipment picked up for less on our Unishippers account. *****

Easy Crate

- 1) Build a simple crate made of 1 x (2", 4", 6", 8", 10" or 12") screwed together to build four sides, cover the front and back with a sheet of cardboard stapled to the wooden frame. Run wooden slats over the cardboard to protect the front and back. Write DO NOT DOUBLE STACK and FRAGILE on the cardboard.
Pack your screens in bubble wrap

Mailing Tube

- 2) Label the top, bottom and sides of the screen, mark the exact location of the crossbar and any bail latches, pull tabs, etc. Strip the mesh and tape all pieces for each screen together. Ship them in a tube

Our fee for returning screens received by tube

Cardboard Box (Includes packaging materials).....See Price List

Crating (Wood & Cardboard Crate includes other packing materials)..... See Price List

Processing Fee for Using our Fed Ex account.....See Price List

(We do not charge a fee for shipping on your account)

Ship your screens to
